

Sanya Sachdeva

New Delhi(110019) | sanyasachdeva223@gmail.com | 9599099839

Computer Science student with strong programming skills in Python and Java, along with experience in web development and AI-powered solutions. Skilled in REST APIs, database management, object-oriented programming, and data structures. Passionate about software development, problem-solving, and building scalable applications while continuously learning new technologies.

Education

SRM University Delhi-NCR, Sonapat, Haryana, B.Tech in Computer Science and Engineering

- Sept 2022 – July 2026

Bosco Public School, New Delhi, Senior Secondary Education, CBSE

- April 2021 – March 2022
-

Projects

RepHelp- Hotel Booking Application

- Developed a full-stack responsive hotel booking application using React and MERN stack.
- Designed an admin dashboard with real-time analytics for inventory management, order processing, and user authentication.

SyAI - Simple Yet Another AI

- Collaborated in a team to develop an AI-powered notes and productivity application.
- Authored a research paper based on the application's design, development, and implementation.
- Led the AI and Python development, implementing features such as AI-generated quizzes, content generation, and realistic image generation from text prompts.

FitFreaks- Gym Website

- Developed a responsive and visually engaging front-end for a gym website using HTML, CSS, JavaScript.
 - Emphasized user experience with smooth navigation, mobile-friendly design, and consistent branding.
 - Applied modern UI/UX principles using tools like Tailwind CSS for styling.
-

Certifications & Workshops

Cyber Security, SRM University Delhi-NCR, Sonapat

- Attended a 3-day Cyber Security workshop with hands-on learning in Linux security, system protection, and cybersecurity fundamentals.

Artificial and Machine learning workshop, Atos Prayas Foundation

- Hands-on training in Python-based machine learning.
- Implemented ML models using Scikit-learn.
- Grade: A+

Deloitte Technology Job Simulation, Forage

- Executed simulated client-based tasks involving software development.
 - Analyzed technical problems and delivered efficient, scalable solutions.
-

Skills & Technologies

- **Languages:** Java, Python, SQL, JavaScript ,Problem Solving (DSA)
 - **Full-Stack Development:** React.js(Basic), Node.js(Basic), Express.js(Basic), HTML/CSS, REST APIs
 - **Development Tools:** Jupyter Notebook, Git/GitHub, VS Code, Excel
 - **Data Science & Analytics:** Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Statistical Analysis, Data Visualization
 - **Machine Learning:** Supervised Learning (Linear/Logistic Regression, Random Forest),Feature Engineering, Model Evaluation & Validation
-

Soft Skills

- Problem Solving & Debugging
- Requirement Understanding Stakeholder
- Communication
- Team Collaboration Time
- Management Adaptability
- Continuous Learning
